

Wireless Connection Module

- ▶ Allows wireless products to be read directly via Orbit[®]
- ▶ Connect up to 6 Solartron Wireless products per module.
- ▶ Does not need to use Windows or 3rd party Bluetooth[®] drivers.

Precision. Quality. Reliability

www.solartronmetrology.com • sales.solartronmetrology@ametech.com

WCM Advantages

- Clean connection to PC
- User software interfaces via the Orbit® library
- Does not rely on Windows or 3rd party Bluetooth® drivers. This provides greater communication reliability
- PC does not need to be Bluetooth® enabled
- No requirement for 3rd party Bluetooth® dongles
- Allows Solartron Orbit® products and Wireless products to be mixed without compromising the Orbit® Network performance
- Use multiple WCM on one Orbit® Network
- Note: WCM offers different functions than the Solartron Wireless Interface Module (WIM.) The WIM is meant to connect an Orbit stack to a computer wirelessly.

Precision Driven...

In the laboratory, on the shop floor or in the field, Solartron Metrology's products provide precise linear measurements for quality control, test and measurement and machine control. Solartron Metrology is a world leader in the innovation, design and manufacture of precision digital and analogue dimensional LVDT gauging probes, displacement sensors, optical linear encoders and associated instrumentation.

Solartron Metrology pursues a policy of continuous development. Specifications in this document may therefore be changed without notice.
